

Aluminum Automatic Pop-Up RFID Wallet

Category: Metal Wallets

Auto-pop-up aluminum RFID wallet. Holds 6-12 cards. CNC anodized.

Technical Specifications

pa_material	Aluminum
pa_color	Black, Gunmetal, Silver
pa_capacity	5-8 Cards
pa_feature	Pop-Up, RFID Blocking
Dimensions	100 × 63 × 9 mm
Material	CNC-machined 6061-T6 aluminum, Type II anodized
Capacity	6-12 cards
Mechanism	spring-loaded automatic card ejection
Shielding	13.56 MHz RFID blocking (metal shell)
MOQ	300 pcs (stock color) / 3,000 pcs (custom tooling)

One-hand card ejection	the spring mechanism fans cards out with a single press — no scraping cards out of a slot.
Real metal shielding	the 6061-T6 shell is the shield. There is no film liner to peel, age or fail, and attenuation is verified per production batch to AQL 2.5.
High capacity without bulk	6–12 cards in a 9 mm body — more cards than most metal wallets, while still slotting into a front pocket.
OEM-friendly finishes	Type II anodizing in stock colors or custom Pantone, with laser engraving that stays legible through years of handling.
EDC retail lines	the automatic ejection is the feature customers can demonstrate in-store in two seconds.
Corporate gifts & trade shows	anodized colors plus a laser-engraved logo make a premium, useful giveaway at a competitive unit cost.
Private label first order	stock tooling and a standard mechanism keep sampling fast (7–10 days) and total landed cost predictable.
