Console-style capacity	4–6 cards eject in a staggered fan for fast selection, with room to spare for a folded note behind the tray.
RFID protection that cannot peel	the aluminum tray itself blocks 13.56 MHz signals — no glued-in liner, so shielding integrity does not degrade with age.
Premium unboxing	leather builds pair naturally with rigid gift-box packaging, lifting perceived value at retail.
Corporate gift and executive sets	debossed logos on leather read as high-end; pair with our Business Card Holder for a matched desk-and-pocket set.
Retail men's accessory walls	the leather exterior fits existing shelf aesthetics while the pop-up mechanism gives a tangible demo moment.
Brands migrating from full-leather lines	keep the leather story, add a functional upgrade — the gentlest way to introduce a mechanism to loyal leather customers.
