Cash	no built-in clip; money-clip variant available
Logo	laser engrave or UV print
Combo	pair with matching money clip for a gift set
Plate-minimalism at its purest	no mechanism to fail, no spring to wear — the card stack is the product.
Pull-tab one-hand release	a looped tab pulls the bottom card out while thumb pressure fans the rest — fast and pocket-safe.

Material choice changes the story	aluminum for cash-light urban buyers, carbon fiber for the EDC enthusiast who leads with texture and strength.
Watch-pocket / front-pocket urban carry	the shortest path from bulky bifold to plate carry.
Phone-case bundling	card + phone in one pocket without magnetic interference — a distinct advantage over magnetic attaches.
First metal-wallet purchase	low price point clears the trial barrier; upgrades to pop-up and stainless steel come next.
Complete the system	Key Organizer Pro · EDC Keychain Lanyard
Capacity logic	How Many Cards Fit in a Wallet?
